The Adventures of Lulu

These 3 stories were written to help today's child grow up with a strong sense of self-esteem & courage. Children are constantly being put into the position of making choices & are being bombarded with news about the critical state of the world. How children handle these challenges is a direct reflection of how they truly feel about themselves. The more a child loves & respects themselves, the easier it will be to make the right choices.

It's Not What You've Got!

Written by Dr. Wayne W. Dyer, this book addresses the topics of money & abundance, with the understanding that children's earliest thoughts & perceptions about money are those that will last throughout their lives. Concepts include: Money does not define who you are; it does not matter what others have, & abundance comes in many forms. Unlike most books on this subject, this is not a how-to manual on spending & savings for kids, but rather a positive, spiritual approach to the meaning of money
